Urethro-cystomanometry

Soft Neoplex.

- Proximal Luer tips colour-marked to make it easy to connect to urodynamics system. Blue = Bladder • Red = Urethra • Black = Filling. Stoppers to close off unused lumens. Centimetre markings to mark position of catheter in urethra. X-Ray visible material.

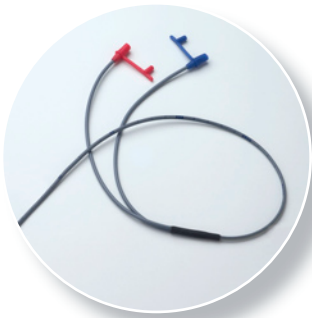

Box of 5 - Reusable - Sterile.

Length of body: 40 cm • Total length: 60 cm

Ch/Fr	8	12
REF.	AH5308	AH5312

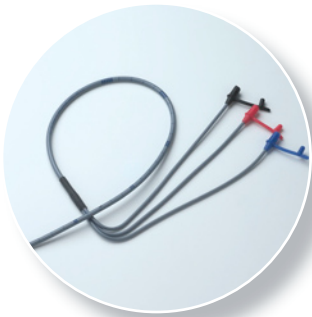

3-lumen catheter, straight.

Length of body: 30 cm • Total length: 55 cm

Ch/Fr	6	8	10
REF.	AH5106	AH5108	AH5110

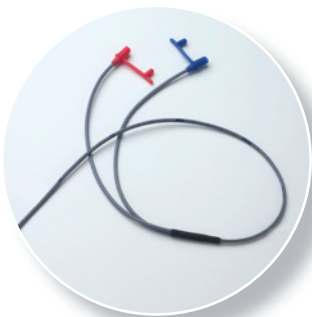

2-lumen catheter, straight, Dantec-type catheter.

Length of body: 30 cm • Total length: 60 cm

Ch/Fr	8
REF.	AH5608

3-lumen catheter, straight.

Length of body: 30 cm • Total length: 55 cm • Paediatric use

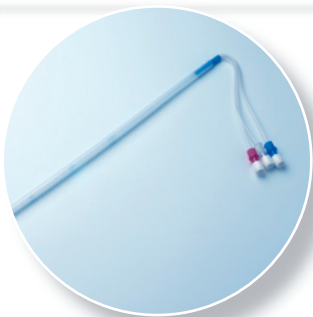

Ch/Fr	6
REF.	AH5406

*2-lumen catheter, straight.
2.5 cm between the urethral eye and the bladder eye.*

Disposable Semi-rigid PVC.

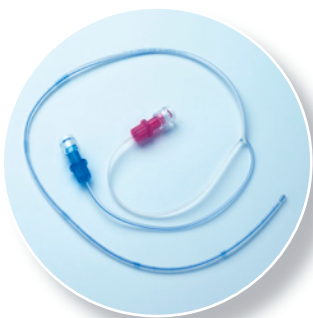

- Proximal Luer-lock tips colour-marked to make it easy to connect to urodynamics system. Blue = Bladder ● Red = Urethra ● Transparent = Filling. Stoppers to close off unused lumens. Centimetre markings to mark position of catheter in urethra.

Box of 10 - Single use - Sterile.

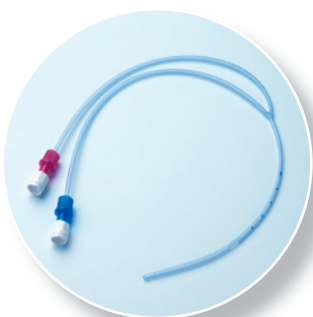

Length of body: 40 cm • Total length: 55 cm	
Ch/Fr	10
REF.	AH2309

3-lumen catheter, straight.

Length of body: 40 cm • Total length: 160 cm	
Ch/Fr	10
REF.	AH9309

3-lumen catheter, straight.

Length of body: 40 cm • Total length: 50 cm	
Ch/Fr	8
REF.	AH2108

2-lumen catheter, straight.

Length of body: 40 cm • Total length: 160 cm	
Ch/Fr	8
REF.	AH9208

2-lumen catheter, straight.

	Female catheter	Male catheter
Ch/Fr	8	9
Length of body (cm)	15	40
Total length (cm)	30	55
REF.	AH24F8	AH24M9

2-lumen catheter, straight, 4 urethral eyes for filling or measurement (multi-point catheter).

Cystomanometry

Soft Neoplex.

- Proximal Luer tips colour-marked to make it easy to connect to urodynamics system. Blue = Bladder • Black = Filling. Stoppers to close off unused lumens. Centimetre markings to mark position of the catheter in the urethra. X-Ray visible material.

Box of 5 - Reusable - Sterile.

Length of body: 35 cm • Total length: 55 cm

Ch/Fr	10
REF.	AH5010

2-lumen catheter.

Length of body: 35 cm • Total length: 55 cm

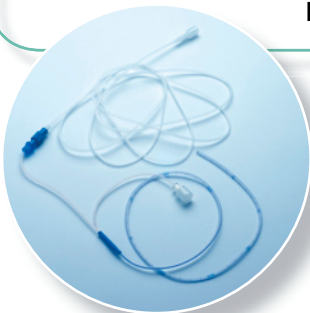

Ch/Fr	12
REF.	AH5212

2-lumen catheter, latex balloon 10 ml.

Semi-rigid PVC

- Proximal Luer-lock tips colour-marked to make it easy to connect to urodynamics system. Stoppers to close off unused lumens. Centimetre markings to mark position of catheter in urethra.

Box of 5 - Single use - Sterile.

Length of body: 65 cm • Total length: 80 cm + connecting line

Ch/Fr	6	8
REF.	AH9006	AH9008

*2-lumen catheter, straight, 2 side eyes for filling, 2 side eyes for measurement.
AH9006: Connecting line 100 cm
AH9008: Connecting line 200 cm*

Length of body: 40 cm • Total length: 65 cm

Ch/Fr	12
REF.	AH4212

2-lumen catheter, coudé.

Urethral pressure profile

Semi-rigid PVC.

- Proximal Luer-lock tip. Centimetre markings to mark position of the catheter in the urethra.

Box of 10 - Single use - Sterile.

UD-CATHETERS

Single-lumen catheter, straight, 2 side eyes for measurement.

Pressure flow rate

Polyurethane.

Length of body: 35 cm • Total length: 50 cm • Box of 5

Ch/Fr 5

REF. AH5705

J catheter, single lumen.

Length of body: 40 cm • Total length: 60 cm • Box of 10

Ch/Fr 8

REF. AH5908

J catheter, 2-lumen. Stylet for catheter placement.

Length of body: 35 cm • Total length: 50 cm • Box of 5

Ch/Fr 9

REF. AH5509

J catheter, 2-lumen. Set with 10 Ch/Fr spittable trocar, for suprapubic insertion.

Abdominal pressure

Disposable.

●●● Proximal Luer tip. Stoppers to close off unused lumens.

Single use - Sterile.

Length: 150 cm • Material: PVC • Box of 10

	Latex balloon	Latex free
Ch/Fr	10	10
REF.	AH3110	AH3111

Catheter, single lumen, 3 ml balloon.

Length: 35 cm • Material: NEOPLEX • Box of 5

	Latex balloon	Latex free
Ch/Fr	10	10
REF.	AH4810	AH4811

2-lumen catheter, 3 ml balloon.

Length: 25 cm • Material: PVC and Latex • Box of 5

Ch/Fr	22
REF.	AH4722

2-lumen catheter, latex balloon.

UD-CATHETERS

Lines and accessories

Lines and accessories that can fit all urodynamic devices.

●●● Sterile.

Perfusion line

Material: **PVC, PC, ABS, PE** • Length: 200 cm • Box of 10

REF. AH1222

*Perfusion line 2-lumen, with spike with protective cap and roller clamp.
Constant flow rate of 2 ml/min under 300 mmHg pressure.*

Filling line

Material: **PVC, SILICONE, ABS, PE** • Length: 385 cm • Box of 10

REF. AH111V AH111M

Non-return valve

Material: **PVC, ABS, PE** • Length: 10 cm • Box of 60 x 3
